

Our Message

The spread of the Coronavirus (COVID-19) has all of our attention. We wanted to let you know your National United family is doing everything possible to keep our employees and you, our customers, safe while delivering the best experience possible.

What We're Doing

We're monitoring and following all guidance from the Centers for Disease Control (CDC), including taking the steps necessary to reduce the threat of COVID-19 exposure to employees and customers.

For the latest updates on branch hours, you can visit our page on our [website](#). Some locations may have their hours adjusted depending on local conditions. Our staff are also being reminded to ensure their hands are regularly washed and sanitized.

Steps You Can Take

Our online banking tools are designed to be easy to use. Whether you're paying a bill through the website, checking an account balance or using our mobile app, our goal remains empowering you to conduct your business quickly and easily.

If you need to access cash, we have ATMs around at each of our locations.

If you have routine questions about your account, feel free to reach out to us via our [Secure Contact Form](#) or at (877) 628-2265.

The best way to prevent illness is to avoid being exposed to the virus. However, as a reminder, the CDC always recommends everyday preventive actions to help prevent the spread of respiratory diseases. Visit the [Centers for Disease Control and Prevention \(CDC\)](#) website for the latest information on COVID -19

Our Mission

Despite the threat posed by COVID-19, National United remains committed to serving you and your families. Together we will get through this situation.
